

SW2500

STUD Welding Machine Series

Suitable for
M3-M8 Stud

Energy Saving

Good Performance

Technical Parameter

Welding Scope	M3-M8	Power Supply	AC220V 50/60Hz 10A
Welding Material	Carbon Steel, Stainless Steel, Low-alloy Stell	Charging Voltage	Stepless Regulation 10-200V
Welding Speed	10-20 pcs/min, depend on bolt diameter	Power Mode	Capacity Energy Storage
Welding Time	1ms-3ms	Housing Protection Grade	IP21S
Capacitor Capacity	99000uF	Net Weight (KG)	15.5
Welding Energy	2500W	Packing Dimension (MM)	435x245x555

Features

- 1. Compatible with M3-M8 studs, bolts and so on.
- 2. Self-detection system to enhance the reliability of machine.
- 3. Firm jjoint welding contribute to no deformation, no bulge and no discloloration.
- 4. Ferrule or gas shield is NOT reuquired.
