

GCDs-100 Five torch straight cutting machine

Multi-torch Straight Gas Cutter

- ◀ This machine is the basis of the original after re-improvement in several parts, which also makes their performance more stable. Gas switches and valves are visible, easy to operate. This series of models are mainly suitable for metal structure etc.
- ◀ This main body is made of high strength alloy aluminum by die-casting.
- ◀ The speed system is adopted controlling silicon unite with infinite variable speed.
- ◀ Quick switch is attached in pipe assembly for higher efficiency in order to control the cutting gas easily at the same time.
- ◀ Used the multi-cutting torches at the same time for higher efficiency.
